Introducing the Power Bar II from Ag Express Electronics

Do you have more than one monitor to hook up in your tractor? The new Power Bar II allows you to hook up five different monitors at the same time. All without the hassle of running each power lead to the battery. The wiring configuration is compatible to the Case, John Deere, New Holland, Ford, Agco, and Cat tractors. It utilizes 3 Amp connectors and 2 Cigarette lighter sockets for connectors. Optional Amp power connector kits can be purchased to add to any one of your monitors you may already have in your tractor. The Power Bar II and the optional Amp power connector kits are available from any one of our stores. Look at the following specifications and see if the Power Bar II will meet your needs and order yours today.

- 10' fused 14 ga. battery leads
- Switched and continuous power pins
 - Pin 1 - Continuous power
 - Pin 2 - Switched power
 - Pin 3 - Ground
- 3 connector outlets that lock in place
- 2 Cigarette Lighter Sockets
