

StarFire® RTK Tower Extension Cable

Overview:

Do you need an extension cable to complete an RTK tower site, but don't want to tie down a lot of excessive cable or piece several extensions together? Ag Express can fabricate RTK Receiver extensions to any custom length up to 300' that your project requires.

- AE3063 connects between StarFire® Receiver and harnessing at ground level.
- Heavy duty cable designed for use in rugged environments like ice, wind, and snow.
- Stock lengths available, or specify custom length up to 300'.
- AE3033 RTK radio extension includes protection diodes and ground strap.

Description	Part Number	List Price
RTK StarFire® Receiver Extension 10'	AE3063-10	105.00
RTK StarFire® Receiver Extension 200'	AE3063-200	675.00
Custom Lengths – Add \$3.00 per foot above 10' – Use part number AE3063-XXX where XXX equals length in feet up to 300' long. Minimum price is \$105.00 for all cables under 10'.		
RTK Radio 4 Pin Deutsch Extension 10'	AE3033-10	150.00
Custom Lengths – Add \$1.50 per foot above 10' – Use part number AE3033-XXX where XXX equals length in feet up to 300' long. Minimum price is \$150.00 for all cables under 10'.
