

AE5640-K4 Garmin Kit to JD 00-10 Series Combine Processor

Kit Contents:

AE5640: Garmin Receiver

AE5641: Magnetic Mounting Plate

QC2068: Adapter Cable (includes 2P Weather pack kit)

Follow these steps when connecting a Garmin receiver kit to the silver or gold mapping processor in a 00-10 series John Deere combine.

1. Locate the silver or gold wedge processor in the cab.
2. Find wires CC967 and CC20 on the wedge processor main harness.
3. Crimp Weather pack male pins on to these wires from the 2 pin connector kit provided.
4. Insert CC967 into position A on the 2 pin connector.
5. Insert CC20 into position B on the 2 pin connector.
6. Connect the QC2068 cable to the 2 pin Weather pack connector just installed on the combine processor harness wires.
7. Plug in the Garmin receiver to the RJ45 connector on the QC2068 cable.
8. Plug the cigarette lighter connector in to an available power connection in the cab.
9. The receiver has been preprogrammed to work with this system.
